OPEN WIFI

**KAWARTHA PINE RIDGE
DISTRICT SCHOOL BOARD**

We know that not all KPR students and families have access to WiFi. As we work to support our communities in these challenging days, we have designated all our schools as public WiFi hotspots. Members of the public may access the Internet at no charge from outside our buildings. In using this resource, we encourage everyone to follow public health directives and maintain physical distancing.

Please note that WiFi signal strength may vary from site to site.
